

1. Clinical manifestation of atopic dermatitis in older children.
2. Treatment of Crohn's disease in children.
3. Etiopathogenesis of rheumatoid arthritis.
4. Emergency therapy for anaphylactic shock in children.
5. Allergic rhinitis in children. Clinic, diagnostics.
6. Clinical picture and diagnosis of different forms of biliary tract dyskinesia
7. Clinical manifestation and treatment of nephrotic form of chronic glomerulonephritis.
8. First aid for febrile convulsions in children.
9. Differential diagnosis of allergic dermatitis in children.
10. Treatment of myocarditis in children.
11. Clinical diagnostic signs of acute renal failure in children.
12. First aid for hyperthermia syndrome in children.
13. Treatment, antenatal and postnatal prevention of rickets.
14. Clinical diagnostic criteria of status asthmaticus.
15. Clinical manifestations of non-rheumatic myocarditis in children.
16. First aid for acute constrictive laryngotracheitis in children.
17. Clinical manifestations and diagnostic criteria of rickets.
18. Treatment of juvenile rheumatoid arthritis in children.
19. Laboratory and instrumental diagnosis of acute and chronic pyelonephritis.
20. First aid for anaphylactic shock in children.
21. Pathogenesis of syndrome of bronchial obstruction in children with bronchitis.
22. Treatment of rheumatic disease in children.
23. Diagnosis and differential diagnosis of glomerulonephritis in children.
24. First aid for tetany in children.
25. Treatment of rickets. Variety of vitamin D drugs.
26. Clinical diagnostic criteria of salt deficit dehydration.
27. Clinical manifestations of oliguric stage of acute kidney failure in children.
28. First aid for pulmonary edema in children.
29. Causes, pathogenesis, clinical manifestations of chronic hypervitaminosis D.
30. Clinical diagnostic criteria of acute rheumatic fever in children.
31. Treatment of gastroduodenitis in children.
32. First aid for status asthmaticus in children.
33. Causes, pathogenesis and clinical manifestations of tetany.
34. Treatment and prevention of acute and obstructive bronchitis in infants.
35. Differential diagnosis of cystitis and pyelonephritis in children.
36. First aid for asthma attack in children with asthma.
37. Differential diagnosis of atopic dermatitis in children.
38. Classification of bronchial asthma in children.
39. Ulcerative colitis. Etiology, pathogenesis. Clinical picture.
40. First aid for acute respiratory failure in case of obstructive bronchitis in children.
41. The general and local therapy for atopic dermatitis in children.
42. Differential diagnosis of rheumatic joint damage.
43. Diagnostic criteria for functional dyspepsia in children.
44. First aid for acute pulmonary edema in children.
45. Treatment of community acquired pneumonia in young children.
46. Etiopathogenesis, classification of juvenile rheumatoid arthritis.
47. Clinical picture and diagnosis of peptic ulcer.
48. First aid for acute renal failure in children.
49. Clinical picture and diagnosis of acute and obstructive bronchitis in children.
50. Hemodynamics and clinical - diagnostic criteria of VSD.
51. Treatment of hematuric form of chronic glomerulonephritis.
52. First aid for acute constrictive laryngotracheitis in children.

53. Functional dyspepsia in infants: etiopathogenesis, classification, clinical picture.
54. Clinical and diagnostical criteria of pneumonia in children.
55. Differential diagnosis and treatment of acute pyelonephritis.
56. First aid for hyperthermia syndrome in children.
57. Clinical manifestations of acute hypervitaminosis D.
58. Hemodynamics, clinical picture and diagnosis of atrial septum defect.
59. Treatment of cyclic vomiting syndrome in children.
60. First aid for convulsions in children.
61. Clinical picture, diagnosis and treatment of tetany.
62. Treatment of gastroduodenitis in children caused by H. pylori infection.
63. Etiopathogenesis and classification of glomerulonephritis.
64. First aid for Quinck's angioedema in children.
65. Pathogenesis of allergic dermatitis in children.
66. Hemodynamics, clinical - diagnostic criteria of aortic stenosis in children.
67. Treatment of ulcerative colitis.
68. First aid for febrile convulsions in children.
69. Differential diagnosis of acute obstructive bronchitis in children.
70. Treatment and prevention of rheumatic fever in children.
71. Etiology and pathogenesis of acute and chronic renal failure in children.
72. First aid for status asthmaticus.
73. Calculation of diet and drug therapy for malnutrition III degree.
74. Etiopathogenesis and classification of bronchial asthma in children.
75. Clinical - diagnostic criteria for coarctation of aorta.
76. First aid for oliguric stage of acute renal failure.
77. Calculation of diet and drug therapy for malnutrition II degree.
78. Clinical manifestation of atopic dermatitis in young children. Atopic march .
79. Diagnostic criteria of juvenile rheumatoid arthritis.
80. First aid for convulsive syndrome due to tetany.
81. Diagnosis and differential diagnosis of acute rheumatic fever in children.
82. Treatment of biliary tract dysfunction.
83. Etiopathogenesis, clinical manifestations of acute glomerulonephritis in children.
84. First aid for "red" hyperthermia in children.
85. Etiology and pathogenesis of gastric ulcer and duodenal ulcer.
86. Diagnosis and differential diagnosis of irritable bowel syndrome in children.
87. Treatment of pyelonephritis in children.
88. First aid for syndrome of bronchial obstruction in children.
89. Clinical manifestation of latent tetany.
90. Hemodynamic of congenital heart disease with pulmonary circulation depletion (for example Fallot defects).
91. Diagnosis and treatment of biliary tract dysfunction.
92. First aid for atsetonemic syndrome in children.
93. Classification, laboratory and instrumental diagnosis of rickets.
94. Treatment of acute allergic dermatitis in children.
95. Clinical and laboratory diagnosis of chronic kidney disease in children.
96. First aid for febrile convulsions in children.
97. Treatment of cyclic vomiting syndrome in infants.
98. Clinical and laboratory diagnosis, radiological signs of different variants of acute pneumonia in children.
99. Hemodynamics and clinical manifestations of VSD.
100. First aid for acute renal failure.
101. Pathogenesis of rickets.
102. Clinical features and diagnosis of acute tetany.

103. Treatment of acute glomerulonephritis with nephrotic syndrome. Forecast.
104. First aid for hyperthermia syndrome in children.
105. Clinical diagnostic criteria of gastral reflux in children.
106. Treatment of allergic rhinitis in children.
107. Clinical manifestations of nephrotic form of acute glomerulonephritis.
108. First aid for seizures in children.
109. Basic treatment of juvenile rheumatoid arthritis in children.
110. Clinical signs and diagnosis of dysfunction of gallbladder.
111. Classification of pyelonephritis in children. Example of diagnosis
112. First aid for anaphylactic shock in children.
113. Diagnosis and differential diagnosis of acute bronchitis and acute pneumonia.
114. Treatment of attack of bronchial asthma.
115. Etiopathogenesis of gastral reflux in children.
116. First aid for acute renal failure in children.
117. Treatment, ante- and postnatal prevention of rickets.
118. Etiology and pathogenesis of acute bronchiolitis in infants
119. Ulcerative colitis. Clinical picture. Methods of diagnosis.
120. First aid for attack of bronchial asthma.
121. Treatment of home pneumonia in children.
122. Clinical diagnostic criteria of myocarditis.
123. Pathogenesis of hypertension in patients with glomerulonephritis.
124. First aid for bleeding due to gastric ulcer in children.
125. Clinical manifestation of bronchial asthma in children.
126. 2. Classification. Diagnostic criteria of functional gastrointestinal disorders in children.
127. Characteristics of urine syndrome of pyelonephritis in children.
128. First aid for acute respiratory failure in case of obstructive bronchitis in children.
129. Clinical diagnostic criteria of functional constipation in children.
130. Antirecurrent treatment and monitoring of patients with chronic pyelonephritis.
131. Pathogenesis of edema in patients with glomerulonephritis.
132. First aid for "white" hyperthermia in children.
133. Treatment of juvenile rheumatoid arthritis in children.
134. Clinical picture and diagnosis of acute bronchiolitis in children.
135. Etiopathogenesis of glomerulonephritis.
136. First aid for seizures in children.
137. Clinical manifestation and calculation of nutrition in third degree of malnutrition.
138. Instrumental and laboratory methods of diagnosis of Crohn's disease.
139. Classification of acute glomerulonephritis.
140. First aid for atsetonemic syndrome in children.
141. Calculation of nutrition in second degree of malnutrition.
142. Differential diagnosis of acute obstructive laryngitis (croup) in children.
143. Clinical manifestation and diagnosis of gallstones in children.
144. First aid for acute constrictive laryngotracheitis.
145. Clinical diagnostic criteria for possible complications of acute pneumonia in young children.
146. Classification of acute rheumatic fever in children. Example of diagnosis.
147. Treatment of acute pyelonephritis in children.
148. First aid for Quink angioedema in children.
149. Treatment of acute obstructive bronchitis in children.
150. Clinical manifestation of articular - visceral form of juvenile rheumatoid arthritis.
151. Clinical diagnostic criteria of chronic pyelonephritis in period of exacerbation in children.
152. First aid for status asthmaticus.
153. Treatment of II degree of malnutrition (diet, drug therapy).

154. Clinical diagnostic criteria of myocarditis in children.
155. Diagnosis of chronic renal failure.
156. First aid for pulmonary edema.
157. Treatment of functional constipation in infants.
158. Hemodynamics, clinical manifestation and diagnosis of tetralogy of Fallot.
159. Main diagnostic features of syndromes of acute glomerulonephritis in children.
160. First aid for children with laryngospasm due to tetany.
